

XPRESS TECHNOLOGIES APP

Xpress Technologies empowers independent trucking companies to run their businesses from anywhere, enabling growth on their own terms. Choice, transparency, and proprietary machine learning algorithms power Xpress Technologies as the day-to-day tool carriers need to book the right freight and safely operate their trucks to run a successful business.

YOUR BUSINESS ESSENTIALS

Access to Great Freight

Ease your daily routine and connect with the right loads, all from the convenience of your mobile device. The Xpress Technologies App provides a freight marketplace that uses machine learning to recommend loads tailored to meet your specific needs and preferences with the ability to manually search and filter results.

Fleet Management

Whether you're an operation of one truck or hundreds, the Xpress Technologies App helps keep your trucks running full. No matter where you are, manage your fleet with load tracking and freight scheduling from the convenience of your mobile device.

HOS Compliance

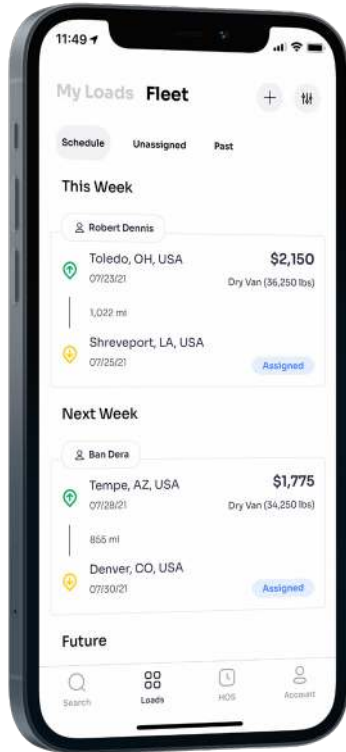

When paired with the Xpress Technologies ELD—the only device of its kind designed to make you as profitable as possible—the Xpress Technologies App is a fully FMCSA-compliant Hours of Service solution that offers a full suite of compliance tools, including HOS tracking, eLogs, DVIR, and other critical carrier essentials.

Available on both
Android & iOS

GROW YOUR BUSINESS WITH XPRESS TECHNOLOGIES

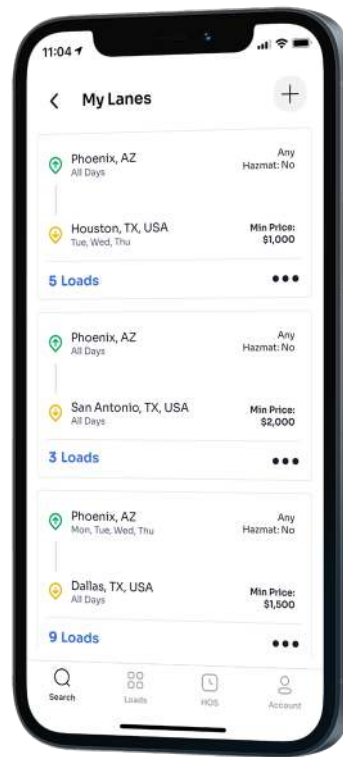

My Loads Schedule

Take control of your load schedule for all trucks in your fleet—whether you're an owner-operator or manage multiple trucks—and plan out your upcoming weeks directly from your mobile phone in a manner of minutes. Keep your trucks loaded using a week-by-week calendar view to find gaps in your freight schedule and easily fill them with active load opportunities directly within the app.

Searchless Loads

Have a lane you like to run? Got an available truck? With "**My Lanes**" and "**Post Trucks**", Xpress Technologies will show you loads that match your preferences and availability, so you don't have to be constantly searching. Xpress Technologies does the searching for you.

THE XPRESS TECHNOLOGIES DIFFERENCE

Enhanced Map Search

For carriers that like to see the bigger picture, Xpress Technologies displays nearby loads on an interactive map to give you a visual sense of load opportunities in your area and allows you to quickly refine your searches across the U.S. using advanced filters.

Carrier-Centric Design

The Xpress Technologies App features a streamlined interface designed around the unique needs of carriers. Built by truckers for truckers, the Xpress Technologies App features light and dark modes and is entirely structured around a single purpose; to make running a carrier business easier.
